

## **TAMIR FOUNDATION**

### **36<sup>th</sup> Anniversary**

November 18, 2021

I want to thank the staff, board and volunteers of Tamir Foundation for all the wonderful work you do for people with developmental disabilities.

For 36 years, Tamir has been helping people with developmental disabilities live their best lives, by helping them optimize their potential and encouraging them to be active in the community.

Ontarians have a long tradition of looking out for each other and taking care of those in need. The work you do reflects those cherished values. Over the past few decades, we've come a long way in understanding the needs, challenges and potential of individuals with developmental disabilities, thanks, in large part, to organizations like yours.

These past several months have, no doubt, been challenging for people with developmental disabilities. Many thanks for all you have done to help them and guide them through the necessary changes.

I wish you many more years of success as you celebrate Tamir's "Double Chai" Anniversary.
